## **30 Years Helping Clients Find Their Competitive Advantage BRODY Professional Development Celebrates Its 30<sup>th</sup> Anniversary**

*Jenkintown, PA* – 30 years have passed since Marjorie Brody first stepped out from behind her professor’s desk to take on a much different audience.

In 1983, Marjorie first brought her unique blend of experience, perspective, energy and honesty to corporate clients. Since then, BRODY Professional Development’s outstanding training team has taught, coached, mentored and cheered on literally thousands of participants who have profited from the knowledge, commitment and passion of our facilitators.

It takes something special to not only survive, but thrive for 30 years. Very few marriages and even fewer businesses hit this mark. But, here we are, celebrating our *diamond* anniversary – fitting, as BRODY continues to bring out the *brilliance* of our participants, help our training partners *shine* and cherish the *lasting partnerships* we have formed with our valuable clients.

BRODY specializes in four essential areas key to successful business communications: Presentation Power, Relationship Management, Facilitation & Meeting Effectiveness, and Writing for Impact. Some of our clients include such recognizable names and brands as Aramark, Campbell Soup, Citibank, Daiichi Sankyo, Genentech, LexisNexis, Pfizer, Project Management Institute, Roche Diagnostics, and The University of Pennsylvania.

To celebrate this special anniversary, our Founder & Fearless Leader, Marjorie Brody is giving away some exciting BRODY offerings for free...
